

In *The Incredible Tale of Robot Boy*, a team of top Scientists attempt the impossible, to create a brain from scratch.

## Parts of the Human Brain

### **Why not try and create your own brain.**

You can try it with plasticine, or playdough.

<https://www.science-sparks.com/make-a-model-brain/>

Or you can have a go at making a neuron.  
<https://www.bna.org.uk/mediacentre/events/neurons-trial-webinar/>

We know there's a lot of baking happening in homes across the country, so if you have some budding neuroscientists who also like baking, you can follow the link below
